## Sarsaparilla

STILL RISING AT WOODVILLE.

Crest of Flood Expected to Reach There Today.

Woodville, May 3.—With the water in the Connecticut and Ammonoosuc rivers between eight and nine feet above the normal stage and slowly rising, it is feared that the spring floods may cause serious damage in this vicinity. The crest of the flood is expected to reach here some time today.

So far no appreciable damage has been done. The highways are passable in all directions and no bridges have been carried away up to the present time. On the railroads, however, conditions are different; many miles of track on the Boston & Maine system being under water.

A drive of 8,000,000 feet of logs belonging to the International Paper company is coming down the Ammonoosuc river but it is thought that the booms here will hold the lumber without difficulty.

The meadows and intervals land in the Connecticut valley are under water but no damage has yet resulted. It is feared however that a period of warm weather would result disastrously inasmuch as it would melt the snow in the woods on the mountain sides where the Ammonoosuc has its source and would pour a great volume of water in to the already overburdened river.

## Duke Sails Home Without a Bride.

New York, May 3.—The Duke de Chaulnes, who came here a few months ago to seek in marriage the hand of Theodora Shonts, daughter of the head of the Interborough system, sailed for his home in France today on La Lorraine without his bride. It is said that Mrs. Shonts and her daughter favored the Duke's suit, but that Mr. Shonts set his face sternly against having a French nobleman as his son-in-law.

## SKIN TORTURES AFFLICT CHILDREN

Obstinate Case of Eczema Covered Little Girl's Limbs with Running Sores—Poison Oak Made Boy's Hands and Arms a Mass of Torturing Sores—Sufferers Soon Relieved and Completely Cured—Grateful Mother Says:

## "CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that I discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble."

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and within twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms were completely well, and there has been no recurrence of the trouble."

"We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor. Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

Complete External and Internal Treatment for Eczema, Scabies, Itch, and other skin diseases. Cuticura Soap (10¢), Cuticura Ointment (10¢), Cuticura Pills (10¢). For the cure of Eczema, Scabies, Itch, and other skin diseases, use Cuticura Soap, Cuticura Ointment, and Cuticura Pills. For the cure of Eczema, Scabies, Itch, and other skin diseases, use Cuticura Soap, Cuticura Ointment, and Cuticura Pills.

## WM. MACQUEEN

## RELEASED

Paterson, N. J., Rioter Free From Prison

## IS NOW OUT ON PAROLE

Allowed to Go By New Jersey's Court of Pardons on Condition That He Leave the Country at Once—Long Fight for Freedom.

Trenton, N. J., May 3.—William MacQueen, who was associated with Luigi Galleani and other anarchists in inciting the Paterson silk riots in 1902, was paroled by the Court of Pardons Mayday and released from state prison after serving three years of a five year term. One of the conditions of the release was that MacQueen, who is an Englishman by birth, should leave the country and return to his family now living at Leeds. If arrangements can be made he will sail for England on Saturday next.

Prof. Walter A. Wyckoff of Princeton university, who made an extended tour in the guise of a tramp for the purpose of studying social conditions, was one of several who interested themselves in the case of MacQueen. Prof. Wyckoff was here today and as soon as the parole papers were signed by the Governor he took them to the state prison and informed MacQueen of the action of the Court of Pardons. Prof. Wyckoff has made all arrangements to have MacQueen taken at once to Princeton, where he will be kept in as much seclusion as possible until he leaves the country.

The release of MacQueen terminates one of the most persistent struggles for freedom from imprisonment which has ever been before the New Jersey Court of Pardons. After the Paterson riots, which included shooting by members of a mob and the destruction of a large amount of property, MacQueen was arrested and held under bail for inciting the riots. He fled the country but subsequently returned and was tried, his five year sentence being based on two indictments, one of which, inciting riot, he was sentenced to three years, and on the other, malicious mischief, to two years.

MacQueen was scarcely well settled in prison before efforts were made to secure his release and for this purpose a fund was raised by his former associates and counsel employed. Judge C. D. Vroom of the court of errors and appeals, and also a member of the court of pardons, was one of the first men of prominence to take up MacQueen's fight. Later the Rev. A. W. Wishart, formerly pastor of one of the largest churches in the city, Professor Wyckoff of Princeton and Mr. Fels, a rich soap manufacturer of Philadelphia and other men of influence were enlisted in the case.

When it became known that the release of MacQueen was seriously contemplated the Treasury Department requested permission to submit evidence in its possession showing the history of MacQueen both in this country and in England, where he was also said to have a police record and to have participated in several anarchistic affairs. It was given as the judgment of the Treasury Department that MacQueen was a dangerous anarchist and not safe to have at large. This opposition served to intensify the fight for MacQueen's release, to secure which a treatise was prepared by the Rev. Mr. Wishart giving a complete history of the case and seeking to demonstrate that MacQueen was a victim of circumstances.

The eight members of the court of pardons were not disposed to show any leniency at first, at least five of them being opposed to setting MacQueen at liberty. During the eight times that the application has been before the court this opposition has gradually diminished, until today the vote to parole was unanimous. Judge Green read a memorandum giving his reasons for voting to parole and this was subsequently made the formal opinion of the court. It he said:

"It may well be that an insistence upon the full penalty for a grave offense, in order that law may be vindicated, may be properly followed by an act of grace which may reveal to an erring and misguided man that the punishment of transgression does not involve hatred of the transgressor. It may be for the general good that MacQueen should perceive that government, upon occasion, can be gracious as well as stern."

## LARGE GERMAN STEAMSHIP

ON THE GOODWIN SANDS.

Craft Runs Ashore and Tugs Are Sent to Aid Her.

Deal, Eng., May 3.—A large German steamship is ashore on the Goodwin Sands. Her name has not yet been ascertained. Tugs and a life boat have gone to the vessel's assistance.

A heavy gale is blowing and the vessel is rolling heavily. It is doubtful if the tugs or lifeboat will be able to get alongside of her.

A German ship, the Wilhelmshut, also went ashore on the Goodwin Sands, but subsequently was refloated and proceeded. This led to the report that the first steamer had been refloated and that her name was Wilhelmshut.

TIES IRON BAR AROUND HIS NECK AND JUMPS OFF PIER.

Man Believed to Be C. G. Stickle of Pittsburg a Suicide.

Cleveland, May 3.—A stranger who is believed to be C. G. Stickle, a traveling man of Pittsburg, jumped from what is known as "suicide pier" early today, after having tied a fifty pound iron bar around his neck. He sank instantly. Just as Stickle plunged off some men saw him and rushed to the end of the pier. With hooks on the ends of long lines they hurriedly raked the body from the pier and from small boats, but it was more than an hour before the body was finally brought to the surface.

## Over 5,000 Druggists

Are recommending VINOL as the best cod liver preparation they ever sold.

That's because Vinol contains all the medicinal elements of cod liver oil, but the useless oil has been eliminated and tonic iron added.

That's why Vinol restores health and creates strength for delicate children, feeble old people, weak and sickly persons and convalescents.

Money back if it fails.

## PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50¢.

## 50 Women Hurt in Leap For Safety.

Chicago, Ill., May 3.—More than 100 persons, mostly women, were penned in a burning building today at 255 Wabash avenue, and narrowly escaped with their lives. Fully half were injured in the panic to escape, but none is expected to die. Most of the injured were hurt in leaping from a fire escape to the street, where they were piled up in a struggling heap. Many of these who were only slightly hurt made off in the confusion without assistance.

## CURABILITY OF

## BRIGHT'S DISEASE

(By the Editor of the Town and Country Journal.)

Personally I have not believed that chronic Bright's Disease is curable, and this for two distinct reasons: First—Medical works class it as incurable and fatal.

Second—Those I have known who had it have died.

Result—I look with distrust upon all claims of alleged specifics.

During my recent visit to San Francisco I heard the president of the Pacific States Type Foundry claim that chronic Bright's Disease was now as curable as the grippe. I said I would like to believe this.

He took me in hand. The statements of hundreds were exhibited to me—many were so marvelous that they had been sworn to and sealed by notaries. I then manifested a desire to see some of the parties themselves. The recoveries have been so numerous in San Francisco that we did not have to go four blocks in any one direction.

In five minutes we were in the presence of one of the best-known merchants in the city. He has been in business on the same spot fifty-one years. He said he had had both Bright's Disease and Diabetes and had been given up, but had completely recovered. Said he knew many others who had recovered. Gave it as his belief that eight-tenths of all cases were curable under the new specific.

We next called on one of the big insurance men on California street. He said his son was swollen with dropsy from Bright's Disease and his death was daily expected when he was put on the treatment. He now is a healthy athlete.

We called on the editor of one of San Francisco's great dailies who had a physician test it out in his own (the physician's) case, the latter being a hopeless diabetic. In six months he was well. The head of another large insurance company on Montgomery street was next accessible. He was in bed in November last in a critical condition due to chronic Bright's Disease. He was well and in his office and also told of a friend of his who was in convulsions when put on the treatment and was now out on the street. We went to the office of an ex-Supreme Judge and also another editor, both of whom had recovered.

I declined to go further. Although there were hundreds more to see, it was useless. If human testimony from the very best people is worth anything, the books are wrong, and chronic Bright's Disease and Diabetes, even in extreme cases, are positively curable. Ethics ought not to be permitted to obscure this discovery, but in the interest of those readers of this paper whose homes may have one of these blights upon it, I now declare the facts and will see that any of them desiring it may be sent full literature. The name of the discovery should be stated. It is known as Fulton's Compound.

Many broad physicians are using the new diabetic, but in view of the terrible annual death list in the United States from Bright's Disease (nearly 60,000) the fact that medical ethics prevent them from proclaiming the discovery to the world, because the formula is the personal property of individuals, in this instance practically amounts to a public calamity—Town and Country Journal, San Jose, Cal., July number, 1905.

If anyone having knowledge of a case of Bright's Disease or Diabetes, will send us the name and address, we will see that they are sent full literature concerning this remarkable discovery.

Represented in Barre by Rickert & Wells of the Red Cross Pharmacy.

## First Presidential Mansion.

The first presidential mansion stood on the corner of Franklin square and Cherry street (1789), New York. A portion of the East river bridge structure rests on the site and is marked by a tablet on the bridge abutment.

## EVEN IF DISCOURAGED

TRY DR. WILLIAMS' PINK PILLS FOR YOUR RHEUMATISM.

The Pills Have Cured the Disease in Almost Every Form and Even in Advanced Stages.

Rheumatism is a painful inflammation of the muscles or of the coverings of the joints and is sometimes accompanied by swelling. The pain is sharp and shooting and does not confine itself to any one part of the body, but after settling in one joint or muscle for a time, leaves it and passes on to another. The most dangerous tendency of the disease is to attack the heart. External applications may give relief from pain for a time but the disease cannot be cured until the blood is purified. Dr. Williams' Pink Pills are the best medicine for this purpose as their action is directly on the blood, making it rich, red and healthy. When the blood is pure there can be no rheumatism.

Mrs. Ellen A. Russell, of South Goff St., Auburn, Me., says: "I had been sick for fifteen years with rheumatism, brought on by overwork. My heart was weak and my hands colorless. I was troubled with indigestion and vomiting spells, which came on every few months. I had no appetite and used to have awful fainting spells, falling down when at my work. I frequently felt numb all over. My head ached continuously for five years."

"About two years ago I began to feel rheumatism in my joints, which became so lame I could hardly walk. My joints were swollen and pained me terribly. Dr. Williams' Pink Pills were recommended to me by a friend, after I had failed to get well from the doctor's treatment. When I began taking the pills, the rheumatism was at its worst. I had taken only a few boxes, when the headaches stopped and not long afterward I felt the pain in my joints becoming less and less, until there was none at all. The stiffness was gone and I have never had any return of the rheumatism."

Dr. Williams' Pink Pills have cured such diseases as nervous and general debility, indigestion, nervous headache, neuralgia and even partial paralysis and locomotor ataxia. As a tonic for the blood and nerves they are unequalled.

A pamphlet on "Diseases of the Blood" and a copy of our diet book will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

## SPAULDING'S

## GAME, 11 TO 4

Defeated Winooski High Yesterday Afternoon

## VISITORS WEAK AT BAT

Fisher Held Them Down to Two Hits—Many Errors on Both Sides—Spaulding Batters Smashed the Ball Hard.

The Spaulding high school base ball team defeated the Winooski high school nine on the trotting park diamond yesterday afternoon, the final score being 11 to 4.

The visiting team was first at bat and were unable to score during the first inning, the first man up popping an easy one into the infield which was grabbed by Noel and thrown to first for a putout, the next man fanned and Noel took an easy grounder from the next and threw to first for a putout.

Griffin was the first man up for Spaulding and drew a pass to first, went to third on the pitcher's wild throw and scored on the shortstop's error. Maiden, the next local man, went to second on the same throw and scored on the same error. Carwell fanned. Noel went to first on a muffed grounder directly into the pitcher's hands and stole second where he hung up while Miles fanned and Wishart went to first on a pop fly muffed by short and Lewis fanned, having two men on base.

Winooski was unable to score in the next inning, while for Spaulding Fisher drew a pass, went to third on a passed ball, and was thrown out at the plate. Worthen was out on an easy fly to center field. Griffin got first on an error, stole second and third and went home on Madden's hit to left field. Madden was thrown out by the catcher while trying to steal second.

In the third inning Lavelle went out on an easy grounder, Dillon took third on Miles' error and scored when Worthen muffed Cormier's long drive to right field. Cormier went to first on the same error, stole second and third and scored on a passed ball.

Carwell was the first man up for Spaulding and lined a hot one into left field for one base, but was caught trying to steal second. Noel was next and made connection for a three-bagger and scored on Miles' hit. Miles went to second on Wishart's single, stole third, and scored on a passed ball. Wishart made a single, stole second, and scored on a passed ball. Lewis got to first on balls, went to third on a steal and a passed ball. Fisher fanned. Worthen went out on an easy one to short, while Griffin knocked a rainbow into the centerfielder's hands, retiring the side.

In the fourth inning Spaulding made costly errors, but succeeded in recovering and holding the visitors down to one run. Garvenau was the first man up and got to first on a muffed infield fly. Parizo batted a light one into the shortstop's territory but he made a wild throw, scoring Garvenau and giving Parizo a pass to third, but he was put out at the home plate on Brigham's grounder to second. Brigham stole second, where he was left; Lewis dropped an easy fly into Carwell's hands and Lavelle followed with a fly which Madden pulled down. Spaulding was unable to score during the inning, although Madden got to third on Miles' sacrifice.

Dillon was the first man up in the fifth and was hit by a pitched ball, stole second, went to third when Cormier made a sacrifice to second and scored on Lother's hit to center field. Lother was caught by Wishart trying to steal second. Meanwhile Rivers had got to first on the shortstop's error but got no further as Garvenau dropped an easy one into Fisher's hands, retiring the side.

Wishart, for Spaulding, drove a long fly into the center fielder's hands; Lewis got a pass, went to second on a steal, to third on a passed ball and scored on Fisher's hit to center field. Fisher stole second, while Worthen drew a base on balls when Griffin struck out and Madden put a fly into the center fielder's hands, making three out, and the score 7 to 4 in favor of Spaulding.

Winooski was unable to get a man farther than second during the sixth, while Noel, Miles and Wishart all scored during the inning. Miles Wishart and Fisher making three out.

Neither side scored during the seventh inning, and in the eighth the Winooski men went out in one, two, three order. In the last part of the eighth Noel scored on a two-bagger and a passed ball, while Wishart gave a light one well up just in front of the plate which the catcher caught. Lewis fanned and Miles, who had gone to first on a throw to third, was caught with Carwell by a double play from the center fielder to the second baseman to first and the side was retired.

In the ninth Lavelle dropped a pop into Carwell's hands, Dillon fanned and Cormier's pop fly was caught by Wishart, leaving Spaulding seven points to the good. The score:
